

Borough of Florham Park

SEWER UTILITY

Sewer Lateral Demolition Requirements:

We may be able to provide a sketch to assist with sewer lateral location.

1. A minimum of 24 hours' notice is required for inspection. Inspections are scheduled by speaking with a Sewer Utility employee at (973) 377-1330. Please provide your name, phone number, e-mail address, and mailing address for invoicing.
2. The Florham Park Sewer Utility will fill out an inspection report and submit it to the Building Department upon completion. An invoice will then be sent to the disconnection contact.
3. FPSU requires the 4" sanitary sewer lateral to be temporarily capped with a 4" rubber test cap located 1 foot outside of the right-of-way line, on the homeowner's property. A cleanout must be installed at the location of the disconnect.
4. The location of the capped line must be clearly marked with a raised cleanout after the backfill.
5. A reconnection fee, payable to the Florham Park Sewer Utility, is due at the time of permit submittal. Payments are made to the Finance Department at 111 Ridgedale Avenue, Florham Park, NJ and must include a copy of the invoice.
6. Upon reconnection to the sewer main, an inspection must be performed by Florham Park Sewer Utility. 24 hours' notice is required prior to inspection. In order to complete inspection, a house sewer connection map, provided by FPSU, must be completed during or before inspection for future cleanout reference. The house sewer connection map can be mailed to the Florham Park Sewer Utility at P.O. Box 131, Florham Park, NJ 07932 or via email to sherold@fpboro.net.
